What makes Israel the world's most innovative country worldwide?

How did a young & small country/area, with limited natural resources become a global leader in R&D, tech, and entrepreneurship?

In this eye-opening session, Israeli-born Tech and business expert David Levy will explore:

1. Israel's key success factors in innovation and R&D.
2. What German entrepreneurs and professionals can learn from the Israeli mindset.
3. Practical, actionable tips to foster innovation – for individuals and for Germany as a whole.

About the speaker:

David Levy – Born and raised in Israel. Physicist, MBA, and venture capital expert with years of hands-on experience in technological business development and innovation strategy. Lives and works in Stuttgart since 2017.
